## Profile

A Frontend Web Developer for an award-winning software specialist, actively involved in building the base frontend experience for various brands in the agricultural industry. Skilled in HTML5, CSS3 and JavaScript. Adept at learning new skills to produce the best product.

## Relevant Work Experience

Frontend Web Developer, Proagrica, Portsmouth

2018 - present

I meet with Project Managers regularly to discuss requirements for the products being developed, to provide time estimates and technology suggestions. I provide continuous communication to meet tight deadlines. I am responsible for ensuring that new site designs are converted to pixel-perfect websites for our clients. I am also an advocate for using new technologies to speed up the development process, such as task runners, ES6 and SASS/SCSS and I have more recently started using React for personal projects.

Frontend Web Developer, Abacus E-Media, Portsmouth

2015 - 2018

As a Frontend Web Developer, I took responsibility for new clients on their Cloud platform, using detailed style guides in Adobe applications and creating or adapting complex, responsive HTML layouts. I worked with backend developers to ensure that new features or modifications are well build and if necessary. I was also responsible for providing support for any frontend issues and give advice regarding the implementation of features for existing clients. I built email templates for clients who wish to use email marketing software and integrate the templates into the software.

Web Developer, Brilens International Ltd, Portsmouth

2014 - 2015

I was responsible for the maintenance of a Magento e-commerce system utilising several storefronts. Using my skills as web developer I ensured that all content is up-to-date and correct. My role also included building new websites for clients alongside a team of graphic designers to produce striking sites which draw customers in, while maintaining the brand identity of both the client and the company.

## Education

Portsmouth University	BSc Web Technologies	2013 - 2015
Chichester University	HND Computing and Software Development	2011 - 2013
Open University	Business Studies	2011
Open University	CertHE Mathematics and computing	2010
British Army	Leadership and Management	2005

## Skills and attributes

Skilled in HTML, JavaScript, and CSS.

Knowledge of Adobe Photoshop, Adobe Illustrator and Adobe XD.

I have an excellent eye for detail, and I can think 'outside of the box' to overcome unforeseen problems. I am analytical and very quick to learn any skill.

I am very patient and remain calm and level-headed under intense pressure.

Enthusiastic and highly motivated.
